

# Creative Catalyst Workshop Series

## Using Visual Facilitation to Reach Your Goals

Christopher Malapitan

May 19, 2020

Join Brussels-based visual facilitator Christopher Malapitan to learn how to use basic drawing tools and visual metaphors to lead a group, an individual, or yourself towards a goal. The field of visual facilitation shows how you can see the big picture, formulate new ideas, and chart a path forward all with just your imagination, a pen, and paper. Christopher is a fabulous teacher who opens the door to engaging with drawing even for people who are convinced they cannot draw. You'll be able to use what you learn in this workshop to enliven classrooms, workshops, meetings, and even your private musings.

Resources from this workshop:

- The [SLIDE PRESENTATION](#) will give you an outline of the workshop activities
- A list of [Visual Facilitation resources](#) from Chris Malaipitan
- A collection of [Shared Learnings](#) from the participants
